# CAMPUS SUPERIOR MESSAGE

**"You are on the cusp of achieving greatness. Every page turned, every problem solved, and every question asked brings you closer to your dreams. Remember, success is not a destination but a journey. Embrace challenges, learn from setbacks, and surround yourself with positivity. Believe in your abilities, and your potential will unleash a world of possibilities. You are the architects of your future, and I have unwavering faith in your capacity to excel. Keep pushing forward, stay focused, and never give up on your aspirations."**

**Rev.Sr.Emelda**

# **PRINCIPAL MESSAGE**

**Every obstacle you overcome, every challenge you conquer, and every set back you bounce back from makes you stronger, wiser, and more resilient. Your education is the key to unlocking your future, and every lesson you learn, every skill you acquire, and every experience you have shapes you into the person you are meant to be.**

**You are the future leaders, innovators, and changemakers of the world. Your voice matters, your actions count, and your dreams are worth fighting for. So don't give up, don't lose faith, and don't lose sight of your goals. Keep pushing forward, keep striving for excellence, and know that success is within your reach.**

**Mr.G.Vinnoly  
Principal(SJGS)**

# PRIMARY ACTIVITIES

A working model of a clock is a physical representation demonstrating the functioning of its components using materials like wood, plastic, or metal. It showcases timekeeping mechanisms and serves as an educational visual aid. Observing how the parts interact provides insight into the engineering behind these devices.

Consider scale, accuracy, and durability when designing and constructing a clock model to ensure its functionality and longevity. Experimenting with various designs can enhance the learning experience.
